9	10 Nourish to Flourish: focusing on your self-care journey Affirm, Validate, Esteem...This life coaching workshop is designed specifically for preschool educators who nurture young minds every day. We will explore the power of word seeds and they can be used to sow a beautiful word garden. It all begins with the teacher! This session focuses on discovering how educators can strategically use the power of words to frame desirable outcomes for both educators and the children and families in their care. By learning to intentionally choose their words, educators can cultivate inner calm, reduce stress, and quiet the static in their own minds, so that they can be present for the children. Through interactive activities, participants will explore how spoken words can promote a more positive and supportive learning environment, while fostering stronger connections with students, families, and colleagues. \$7.00 Zoom 6pm-8pm Angela Wilson	11 Happy Veteran Day 	12 The Benefit of Play When there is Trauma and the Power of Play 125 Charles Rollins Rd Henderson NC 27536 6pm-8pm \$7.00 Brenda Yancey	13 The Environment Rating Scale (ERS) 3rd Edition: An Overview of the Changes in the 3rd Edition North Carolina has adopted the third edition of the ERS. This overview highlights the key differences between the previous and current editions, providing essential guidance for effective classroom implementation and insights into the developmental rationale behind these updates. 6pm-8pm \$7.00 Zoom Rojalyn Phillips	14	15
